

FREEDOM DYNAMIC[®] ELEMENT

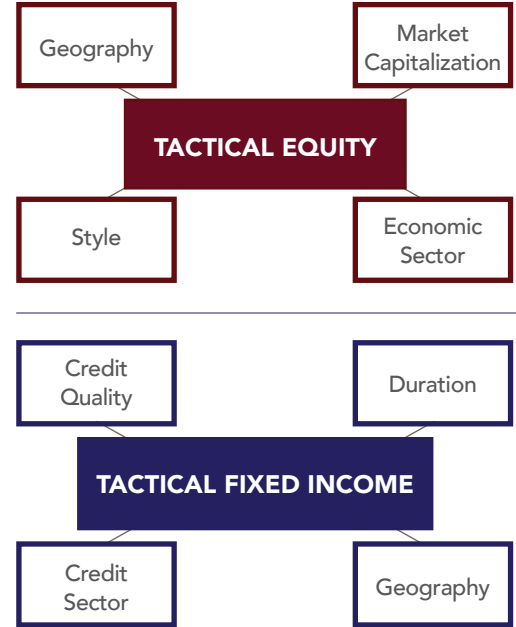

ABOUT FREEDOM DYNAMIC[®]

Tactical asset allocation and concentrated portfolios

The Freedom Dynamic[®] Element of Freedom Capital Management Strategies[®] utilizes tactical asset allocation and concentrated exposures in an effort to deliver enhanced risk-adjusted returns over the long term. The investment strategies available through this Element incorporate economic, quantitative, and fundamental analysis of capital markets in an effort to identify the most compelling investment opportunities across global capital markets.

ABOUT THE TACTICAL SERIES

The Tactical Series of the Freedom Dynamic[®] Element seeks to actively allocate capital across asset classes, geographies, sectors, and investment styles in response to the prevailing capital market environment. The investment strategies available through this series are dynamically managed in an effort to deliver improved risk-adjusted returns over the long term.
